

# Danny Alexis Vinueza Zavala

Full Stack Developer | .NET Core & Node.js | AWS Cloud

Quito, Ecuador • [vinuezadanny51@gmail.com](mailto:vinuezadanny51@gmail.com) • [LinkedIn](#) • [GitHub](#)

FullStack Developer with 2 years of experience in .NET ecosystems (C#, .NET Core, .NET Framework) and Node.js. Experienced in designing REST APIs, WebHooks, and WebSockets, as well as modernizing architectures on AWS. Results-oriented: in collaboration with the team, I achieved a 20% improvement in system performance and a 25% increase in scalability. I have the ability to translate business logic into efficient and scalable technical solutions.

## PROFESSIONAL EXPERIENCE

### Interatecc S.A

Software Developer (Full Stack)

Quito, Ecuador

March 2024 - Present

- Architecture & AI:** Developed a real-time analytics platform (**Node.js, WebSockets**) integrating AI-driven transcription and sentiment analysis, visualized on dynamic dashboards (**React, Vite**).
- Cloud & Scalability:** Spearheaded the migration of APIs to **AWS Serverless** (Lambda, API Gateway), achieving a **25% improvement in scalability** and security by leveraging IAM roles.
- Backend Optimization:** Designed C# .NET services using AWS SQS/EventBridge to automate queues, drastically reducing database load.
- Omnichannel Integration:** Implemented APIs and Webhooks for the Meta ecosystem (WhatsApp, Facebook) while maintaining the legacy client portal (.NET/SQL), ensuring operational continuity.

### Interatecc S.A

Junior Programmer

Quito, Ecuador

October 2023 - February 2024

- Backend Development:** Built and maintained RESTful APIs using C# and .NET, ensuring efficient communication between the company's core services.
- Systems Integration:** Implemented third-party API connections to extend product functionality.
- Database Management:** Designed and normalized SQL Server schemas, optimizing queries to improve performance for new **features**.

## EDUCATION

### Universidad Tecnológica Israel

Computer Engineering

Quito, Ecuador

October 2024 - Present

### Escuela Politécnica Nacional

Advanced Technologist in Software Development

Quito, Ecuador

January 2021-August 2024

## Technical Skills

- Languages:** JavaScript, TypeScript, C#, HTML, CSS, Java.
- Backend Frameworks & Libraries:** Node.js, Express, .NET, Fastify.
- Frontend Frameworks & Libraries:** React, Vite.js, Tailwind CSS.
- Databases:** MySQL, SQL Server, PostgreSQL, MongoDB, Oracle (Basics).

## Soft Skills and Languages

- Teamwork & Collaboration.
- Critical Thinking & Problem Solving.
- Adaptability & Continuous Learning.
- Spanish (Native), English (B2)

- **Cloud:** AWS (Lambda, API Gateway, S3, SAM, IAM, EC2, Transcribe Streaming, Comprehend)
- **Version Control:** Git, GitHub.
- **Methodologies:** Agile SCRUM.

## ADDITIONAL TRAINING

<b>AI Immersion with Google Gemini, Alura</b>	<b>September 2025</b>
Hands-on training in prompt engineering and Google Workspace integration to automate workflows and build intelligent assistants.	
<b>Backend Course with Node.js: PostgreSQL Databases, Platzi</b>	<b>August 2024</b>
El curso se dio explicando de manera practica con un proyecto backend con Nodejs y la base de datos PostgreSQL.	
<b>Git and GitHub Course, Platzi</b>	<b>March 2024</b>
Applied version control best practices in a real-world project environment using Git and GitHub.	
<b>Scrum Foundation Professional Certificate SFPC, CertiProf</b>	<b>April 2023</b>
Mastered the fundamental principles and theory of Agile methodologies and the Scrum framework.	

## Volunteering, Internships

<b>Interatecc S.A</b>	<b>Quito, Ecuador</b>
Technology Intern	<i>April 2023 – September 2023</i>
Implemented critical updates for WhatsApp Chatbot APIs based on client requirements and performed <b>corrective maintenance and feature enhancements</b> for the web portal.	
<b>IEEE SIGHT STEM Camps</b>	<b>Quito, Ecuador</b>
Co-authored a programming book for youth, designing the curriculum structure to foster early technical skill development.	<i>April 2023 – August 2023</i>
